

## School Grounds

- Make plant pots out of tyres
- Use forest school area for storytelling, marshmallows, hot chocolate
- Teach children how to use the playboxes
- Create playboxes for quiet activities
- Gardening: weeding, herbs bunches, planting...
- Fix compost area, use to recycle food waste
- Outdoor learning activities: use wildlife area for science
- Learn a new playground game

## Global Citizenship

- Buy Fairtrade snack for a week
- Fairtrade coffee
- Presentation to whole school on Fairtrade
- Impact of Global Warming on Environment

## Water

- Turn taps off and monitor
- Explore water saving tips—posters, Powerpoint
- 'Drop 20' challenge

## Energy

- No electricity day
- Make a chart to see how many electric items are used
- Monitor lights and whiteboards and record
- Read/interpret energy bills

## Recycling

- Different types of recycling bins clearly labelled
- Promote plastic recycling
- Ideas on how to use less plastic
- Aim to reduce general waste
- No photocopying/paper day
- Recycling activity in each class
- Sorting different types of recycling
- Make a rap about recycling, reducing, reusing
- Green screen presentation on recycling
- Reuse/recycle material to improve school ground or biodiversity

2018

## Healthy Living

- Survey of snacks/lunchboxes
- Healthy snack week
- Do daily exercise for a week
- Design a healthy meal
- Fruit tasting

## Biodiversity

- Create different habitats in wildlife area
- Make bird food balls
- Plants that attract different insects
- Make some plant pots
- Survey/bar graph of minibeasts/animals in our environment
- Survey of types of trees/plants we have

## Litter

Litter picking in community  
Collect litter and weigh  
Create a litter policy  
Provide a range of litter bins on school site

## Transport

- Walk/cycle to school week
- Survey of how people travel to school each day
- Create a school travel plan

Eco Week
