

Astonishing Allotment Grows Goods

Tanyfron allotment

Did you know that you can find allotments all over the UK? An allotment is a small plot of land that you rent and grow fruit and vegetables.

Secure Defence

Locked gate

Allotments are usually secure: most have locks and fences. In Tanyfron they have locks for this reason only the allotment holders can open the gate. They also have bushes, thorns and spikes to cover the allotment.

Super soil and Drainage

Compost

In the UK, allotments use different types of soil: in Tanyfron they use alkaline and loam. They also add compost to the soil, as a result this makes the soil richer. Tanyfron allotment makes sure that there is no mud or water in the soil because of this the fruit and vegetables grow better.

Food in the allotment

tomatoes growing

In the Tanyfron allotment they grow different fruit and vegetables, this includes tomatoes, chillies and more. The allotment holders, who should keep the allotment safe, grow plants like sunflowers, there are also other food like cabbage and corn. Not everything is food, they also have animals and evidence of wildlife as a result this helps for pollination.

What are the practical amenities?

Water trough

Tanyfron allotment doesn't have many amenities, due to this, not many people can go to the toilet. One of the amenities is a water trough, this helps the allotment to collect rain water.

The best ways to travel to the allotment?

Landscape and transport

Buses drive past the Tanyfron allotment, for this reason people can go to the allotment by bus. Allotment holders, who can walk to the allotment sometimes drive. There are lots of ways to get to the allotment in Tanyfron allotment you can: walk, drive and bike.
