

What we have been up to?

This year we have looked at the New Curriculum for Wales that will be introduced in September 2022. We looked at the Four Purposes and looked at what we do well and we need to improve on. We put posters up around the school to remind everyone about the Four Purposes. We also helped to organise some activities to learn about the New Curriculum and our school values.

We gave each class £200 each to spend on resources that will improve the environment. Lots of children chose to use the money to spend on fiddle toys because this helps to improve concentration and learning.

We introduced a new QR code so that everyone can make suggestions.

We have also looked at The Children's Rights and how important these are for all children. We have shared some articles in assembly. We now have two year 6 children as Super Ambassadors. These will make sure everyone knows about The Children's Rights.

We also responded to other children's suggestions to help start up after school clubs and play buddies after Covid.

.....

What we have achieved so far:

- An Outdoor gym has been installed on KS2 yard
- An outdoor classroom has been installed on the school field
- A canopy has been installed in Foundation Phase
- The children know more about the Four Purposes
- The children have bought resources for their classroom

Important School Council Dates:

Check meeting schedule for dates of meetings

Spring term (TBC)

School Council to visit Mayors parlour

What we are working on:

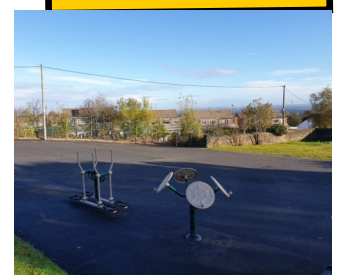

Planning for the New Curriculum

Improving Play Opportunities

To improve wellbeing

We need your ideas!

If you have any ideas about how we could improve our school then please speak to a school councilor or use the QR code to put your suggestions across

Our outdoor gym overlooking the beautiful scenery
