

Hi Everyone,

This half term our topic is "Once Upon a Time".

We will be listening to "The 3 Billy Goats Gruff", learning and retelling the story and using positional language. In maths, we are learning about size and measuring.

We will be learning the song, "Ten little Men in a Flying Saucer" and developing our counting skills including counting backwards.

We will also be celebrating Chinese New Year.

To enhance your child's learning, here are some activities you could enjoy at home.

<u>Physical</u> Draw a picture of the 3 billy goats and the troll. Build a bridge for the billy goats to cross the river.		<u>Communication</u> Play a game using words: under, over, next to, behind and in front. Look at a book every day	
	<u>Maths and Numeracy:</u> Keep trying your best with your counting. If you can count to 10 really well can you count backwards from 10 to 0? Can you find something that is taller than you and something that is shorter than you?		<u>Well-being</u> Challenge yourself to learn a new skill you are proud of such as pedal your bike, put on your gloves or try a new food.
