

Suggested Home Learning 'Wales and Our Local Area'

Moel Siabod a Moel Hebog

- Where is your favourite place to visit in your local area? Go for a walk and visit your favourite place with your family. Describe your favourite place using exciting adjectives. Why is this place special to you? You could write it down or record yourself describing it.
- How many cars pass your house in 10 minutes? Count each car that drives past. You could make a tally chart to record your results.
- Set up a pretend shop in your house. Can you make price tags for your items? Can you use coins to make the amounts?
- Draw a map of your journey to school.
- Build a model using Lego or blocks of your house or an interesting building in your street.
- Paint or draw a picture of your favourite place in your local area.
- Make a junk model of your house or a building in your area using recyclable items.

If you would like to do any of these activities, please share some pictures of your work on Class Dojo.
